TRI-MAG 300

Tri-Mag 300 is a dietary supplement providing 3 important chelated forms of magnesium for enhanced absorption.

What are Chelates?

- Chelates are organic compounds attached to a mineral resulting in a stable structure. The purpose of chelated minerals is to surround a metal ion with an organic molecule so that it can be better absorbed in the human body.

About Magnesium:

- Magnesium is an essential mineral. It must be taken in through the diet however; with over processed food and depleted soil it is difficult to get the optimal daily intake. Magnesium supplementation is a way to support your daily intake.
- Magnesium promotes the absorption and metabolism of calcium and is responsible for the activation and function of 325 enzymes that affect various metabolic processes and physiological functions such as:
 - neuromuscular contractions*
 - heart and cardiovascular function*
 - regulation of the acid-alkaline balance in the body*
- Magnesium is necessary for the metabolism of carbohydrates, amino acids and fats; also for energy production, and the utilization of calcium, phosphorus, sodium and potassium which are important electrolytes.

• Magnesium Supports:

- Adrenal hormone balance*
- Bone health*
- Cardiovascular function*
- Detoxification functions*
- Glucose metabolism*
- Mental health*
- Nerve function*
- Tooth enamel*

• Magnesium deficiencies have been associated with a variety of conditions such as:

- Confusion*
- Occasional sleeplessness*
- Low mood states*
- Irritability*
- Fatigue*
- Musculoskeletal conditions*
- Tooth decay*

Supplement Facts

Serving Size: 4 Capsules

Amount Per Serving

Magnesium (Mg Taurate, Mg Glycinate, Mg Malate) 300 mg

Other ingredients: vegetable cellulose, vegetable stearate.

Warning: If you are pregnant or nursing, consult your health care practitioner before taking this or any nutritional product.

- **Suggested Use:** As a dietary supplement, take four capsules daily. Daily amount may be divided between AM & PM, or as directed by your health care practitioner.
